DRY LUBE

Enhanced with Teflon™ surface protector, Dry Lube is perfect for long lasting use in dry conditions. The unique 'efficiency increasing' formula reduces friction and wear enabling the chain to perform optimally for longer. Suitable for road, off-road and MTB.

03135 - (100ml)
PACK: Inner 10 Outer 100

DRY WAX

High-performance Dry Wax formulated to penetrate the links of the chain before coating the outside to form a barrier against dirt and dust. Optimised for elite competition, ultra-efficient gear changes and chain performance. Also suitable for indoor training.

03056X - (100ml)
PACK: Inner 10 Outer 100

WET LUBE

Wet Lube provides reliable performance in the wettest conditions. This ultra-durable bike lube coats the chain, protecting it from the elements to enable silky smooth gear changes. Optimised for use during the colder months and ideal for off road riding.

03137 - (100ml)
PACK: Inner 10 Outer 100

03073 - (400ml)

SELF SEAL INNER TUBES

High quality inner tubes filled with our inner tube sealant in the correct dosage. In the event of a puncture, the solution is forced to the hole by centrifugal force, while the fibres plug the hole immediately and permanently with minimal loss of pressure.

- Prevents flat tyres
- Seals punctures instantly up to 3mm diameter
- Water-based with anti-corrosion properties and harmless to the environment
- Inner tube and tyre will not stick together
- Will not dry out regardless of outside temperatures
- Every inner tube is individually tested before leaving the factory

WHEEL TRUING STAND

Autodishing, advanced geometrical design for more precise but easy wheel truing. For use with wheels up to 29" with or without tyres and is designed to be mounted on a work bench. Made of steel for exceptional durability and truing accuracy. The Weldtite Cyclo Wheel Truing Stand uses a spring loaded caliper to prevent the guides from sticking to the wheel. The stand is adjusted easily, enabling quick and precise truing without any fuss.
