BIKE CLEANER CONCENTRATE

Reduce the amount of plastic you use with Bike Cleaner Concentrate.

Available in 200ml, which will make 2 litres of the powerful yet biodegradable bike cleaner.

03059 - (200ml) PACK: Inner 10 Outer 10

CARBON POLISH

The finishing touch to your carbon frame post bike wash. The spray is suitable for all carbon finishes including matt and is engineered to provide a sleek finish that repels dirt and water. The spray will protect the frame from uv rays, keeping your bike in peak condition all year long.

03062 - (250ml) PACK: Inner 10 Outer 10

CARBON GRIPPER PASTE

Designed to protect and enhance the performance of carbon components. Applying Carbon Gripper Paste to stem clamp areas and seat posts will increase surface friction, reduces tightening torque and prevents seizing and slipping of parts.

TUBELESS TYRE SEALANT

Tested for industry leading performance, Weldtite Tubeless Sealant can be depended on for reliable self-sealing time after time. Great value, long lasting, allergy free and environmentally friendly formula. Maintenance and topping up is incredibly easy, as the sealant does not 'clog' up and can be injected into valve stems once the core is removed (integrated valve core removal tool as part of 240ml bottle). Available in 1L for cyclists with more than one bike or in 5L for busy workshops looking for quick and straightforward tubeless installation. Also suitable for inner tubes.

SELF SEAL PATCH KITS

The World Record holders! These are the best self seal patches available - the stats speak for themselves. The Red Devil’s triple layer adhesive structure forms a super secure bond to the tyre, fixing the puncture and preventing future air loss for a quick and easy repair. Recommended for all inner tubes including Tubulito.

SELF SEALING INNER TUBES

High quality inner tubes filled with our inner tube sealant in the correct dosage. In the event of a puncture, the solution is forced to the hole by centrifugal force, while the fibres plug the hole immediately and permanently with minimal loss of pressure.

- Prevents flat tyres
- Seals punctures instantly up to 3mm diameter
- Water-based with anti-corrosion properties and harmless to the environment
- Inner tube and tyre will not stick together
- Will not dry out regardless of outside temperatures
- Every inner tube is individually tested before leaving the factory
